Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4,7 rejected under 35 U.S.C. 102(b) as being anticipated by Foster (2732211).

Claim 1: Foster teaches playing pieces of first (13a) and second (13b) colors, characterized by removable blocks (2:15-19) having grips (14).

Claim 2: Foster teaches supporting surface (10).

Claim3: Foster teaches raised peripheral edge (10b).

Claim 4: Foster teaches gripping means characterized in blocks (14,13).

Claim 7: Foster teaches playing pieces of first (13a) and second (13b) colors, characterized by removable blocks (2:15-19) having grips (14), supporting surface (10), raised peripheral edge (10b), and gripping means characterized in blocks (14,13).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5-6,8-9 rejected under 35 U.S.C. 103(a) as being unpatentable over Foster in view of Pridgeon (5333877).

Foster teaches all limitation except that it does not teach the gripping means in the shape of a raised knob.

Pridgeon teaches a raised knob as a gripping means (20).

Whereas some players have small fingers for gripping a block through the recess portions as demonstrated by Fosters, others with bulky hands find difficulty in picking blocks. In order to make it easy for all players, it would have been obvious to use a raised gripping means on blocks. One of ordinary skill in art at the time the invention was made would have suggested raised gripping means as knobs for picking the blocks.
